Next Level 4 Course Starts on 29th March in Slough. Enroll Now and Get 15% Discount

NVQ Levels 2,3 & 4 Beauty Therapy and Laser/IPL

If you're looking for beauty therapist jobs, then our Comprehensive Beauty Therapy/Laser IPL Track is for you. Our CEO Manroop Ahitan, owner of four CoLaz Advanced Beauty Salons in London, supervises our curriculum, so you get practical, real world instruction developed by an experienced salon owner.

"Beaulaz taught me everything I needed to know to be a beauty therapist. I'm now looking forward to my new career!"
Adele

With a [NVQ Level 2 Diploma in Beauty Therapy](#), you receive a job ready qualification based on national occupational standards for beauty therapy. At Level 3, you will study the mandatory units in more depth and at Level 4 you receive your qualification to work as an advanced beauty therapist. We also offer Level 3 and 4 courses in advanced laser and intense pulse light (IPL) treatments.

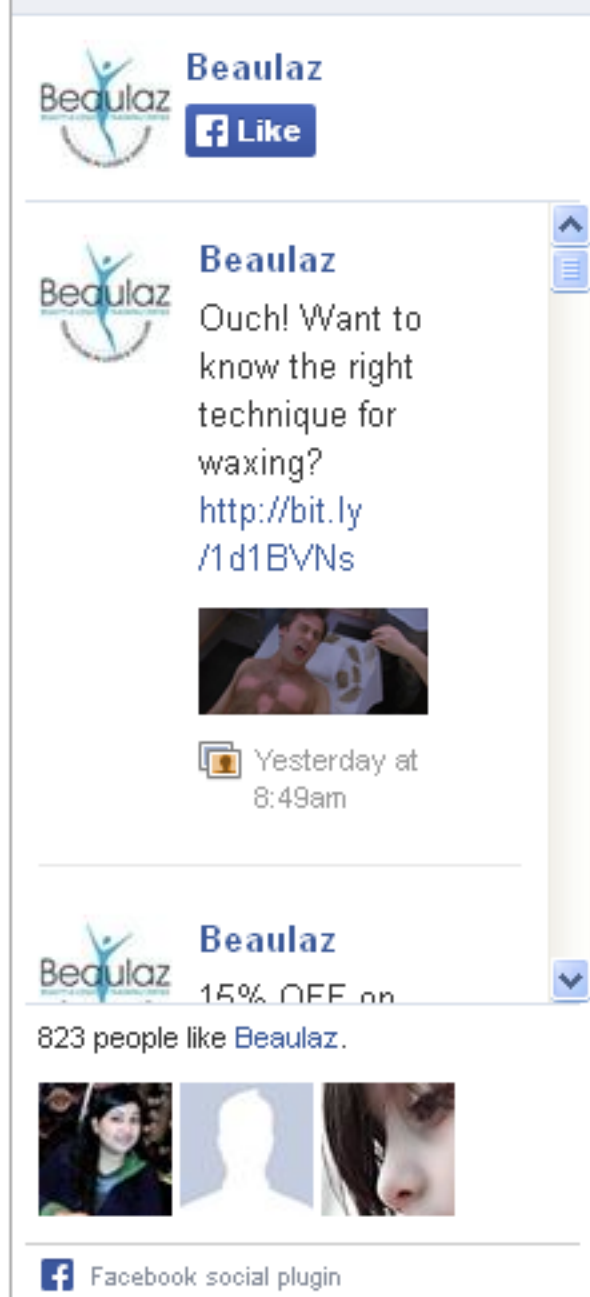

And unlike government courses, it doesn't take one or two years to complete. You can fast track our beauty courses to get certified in just 17-26 weeks. Plus, we offer "first look" employment in our CoLaz salons after you've completed your beauty courses.

Tight For Time? You can Still Improve Your Skills

We also offer short courses in everything from [Threading Epilation](#) to [Eyelash Extension Training](#) to [Foot Care](#).

See all of our [Short Beauty Courses](#) here.

Proven Results for Salon Owners and Medical Professionals

We've developed a shorter [2 1/2-Day British Medical Laser Association \(BMLA\) course](#) for busy salon owners and doctors, nurses, and other medical professionals. This covers the core of knowledge for IPL laser hair removal and meets the requirements to get treatment insurance for use of a laser machine.

Plus, we teach salon business management and marketing. How to acquire clients, create repeat clients, and implement efficient business systems. You'll also learn to deal with complaints, how to do consultations, how to convert telephone inquiries into paying customers, and much more.

Salon owners must have completed Level 2 and 3 Beauty Therapy to take this course. Medical professionals are not subject to this requirement.

Add Profitable Laser Hair Removal to Your Salon Services

We also offer enrollment directly in the [NVQ Level 4 Certificate in Laser Hair Removal and IPL](#). This is a vocationally related qualification focused on light and laser treatments for hair and skin. It will give you the required knowledge and practical experience to confidently perform treatments on paying clients.

The certificate holder is qualified to work as a laser technician, freelancer, or consultant. You can also become a specialist in this field to open your own clinic in advance hair removal or add the service in your current salon.

Convenient Location For Learning
